QUIK-LOCK

LADDERCLAMP

The Side Mount Ladder Restraint System is designed to provide security and safety to anyone needing to carry a ladder on their vehicle ladder rack.

QUIKFACTS

ACCOMODATES EXTENSION & STEP LADDERS

"U" shaped hook restricts movement by encasing rungs of ladders. Works on both extension and step ladders.

APPROVED

MEETS STATE & FEDERAL GUIDELINES

Gives you safety and security while you are on the road.

ENGINEERED TO PERFORM

In use since 1992, our engineered restraint systems have proven they are built to perform.

RUST FREE ALUMINUM

Built out of corrosion free Aluminum guaranteeing long life with no rust.

RUBBER TIPPED HOOK

The rubber tips protect both the sides and rungs of the ladder.

LOCKABLE

Perfectly designed to accept most long-shank padlocks.

MOUNTING OPTIONS

Predrilled holes will accommodate vertical or horizontal mounting options.

SPRING LOADED MOVEMENT

Simply flip the handle and the hook swings over the ladder rungs.

SAFE • SIMPLE

RESTRAINT STRAP

The Side Mount Ladder Restraint also comes with a restraint strap to keep the ladder from rattling while the vehicle is in motion.

NYLON WEBBING

Heavy duty webbing is durable and sewn to prevent unraveling in the wind.

WEB CLAMP

Strap easily slides through military style buckle while the teeth keep it from pulling through once secured.

EASY INSTALLATION

Simply mark, drill and bolt it on. Couldn't get much easier than that!

PULL LOOP

Loop sewn into strap allows you to cinch it tight around the ladder.

Vertical Mount

MOUNTING OPTIONS

Horizontal Mount

Predrilled holes allow a variety of mounting options. Secure your strap in any direction even upside down.

QUICKFACTS

FITS MANY APPLICATIONS

Designed to mount on virtually any ladder rack on any service vehicle.

Pick-Ups with Caps

Pick-Ups

Vans

Service or Utility Bodies

Stainless Steel Hardware
